# SJA-1013 Ends roll unwrapper

## FEATURE :

- Fully Automatic system
- High Speed and High efficiency
- User friendly operation

## KEY FUNCTION :

- Robot feeding to unwrapping Machine
- Automatic unwrapping shrinkage film
- Robot feeding to the Ends Transport conveyer
- Automatic Pallet stacking

## SPECIFICATIONS :

Spec and Range	200D ~700D
Speed	2~4 end rolls per minute
Pallet Size (Maximum)	1000mm X 1200mm
Floor Space (LxWxH)	5410mm X 6660mm X 3990mm
Horsepower Required	4.5 KW
Net Weight ( approx.)	3400kg

### Depalletizer system:

The layer film and Ends roll are to be removed from the pallet by robot.

### Shrinking film cutting and separating:

Efficient and mature design making the process fast and neat.

### High Speed & Precise Robot operation:

Robot transporting and collecting the Ends to the Ends Transport conveyer.
